Sight Word Bingo Boards

Three free printable boards for kindergarten

How to play

Print the boards on cardstock and cut out the 48 calling cards on pages 5–7. Give each player a board and about 20 small markers (dried beans, buttons, or bottle caps). Shuffle the calling cards, draw one card at a time and read the word aloud — players read it back, then cover the matching square if they have it. The first player to complete a full row, column or diagonal — or to cover the whole board for a blackout win — shouts “Bingo!” and reads back the covered words to check the win. Shuffle the cards and play again!
